

XVTH INTERNATIONAL SYMPOSIUM ON CHOLINERGIC MECHANISMS

October 16-20, 2016, Marseille, France

Palais des Congrès – Marseille Chanot

Sessions

- ❖ Higher brain functions / nicotinic and muscarinic modulation
 - ❖ Neurodegenerative diseases, development, neurogenesis
 - ❖ Brain: cholinergic circuits, optogenetic stimulation of cholinergic neurons
 - ❖ Inflammation / non-neuronal cholinergic systems
 - ❖ Genetics: human, animal models, polymorphism, evolution, epigenetics
 - ❖ Supramolecular organization of the synapse
 - ❖ Neuromuscular junction and motoneuron: development, diseases and therapeutic strategies
 - ❖ Nicotine addiction and tobacco abuse
 - ❖ Pharmacology, modulators, toxins, drug design, therapeutic agents
 - ❖ Structure-dynamics-function relationships of cholinergic proteins
 - ❖ Allostery in cholinergic receptors and enzymes
 - ❖ Exposure to organophosphorus pesticides and nerve agents
- And a **Roundtable** on Societal and funding issues associated with cholinergic neurotransmission

❖ Opening lecture:

Jean-Pierre Changeux (Paris, France)

❖ Honorary Lecture:

Hermona Soreq (Jerusalem, Israel)

❖ The EMBO Keynote Lecture:

Joel Sussman (Rehovot, Israel)
